About

Mobile Engineer with 3+ years of experience developing Flutter-based applications across banking, merchant services, lending, agrifood, and freelance domains. Experienced in building Android and iOS applications, integrating REST APIs, implementing state management, and supporting mobile products from development through release readiness.

Professional Experience

PT Bank Multiarta Sentosa Tbk - Mobile Developer (Flutter) April 2023 – Present
Bank MAS, a subsidiary of Wings Group.

Apps: Bebas (mobile banking & lending), BebasMaju (merchant).

- Developed Bebas app (mobile banking & lending) features using Flutter, including loan application flow, approval tracking, and repayment management across Android and iOS.
- Built BebasMaju merchant app features such as QR-based payments, invoice generation, and transaction tracking to support daily merchant operations.

PT. Japfa Comfeed Indonesia - Flutter Developer Nov 2022 – Dec 2023

Japfa Comfeed Indonesia, Tbk is a leading Indonesian producer of integrated agrifood products, with over 4 decades of experience.

- Developed JForm, the company's first digital forms-based task management system, as a Flutter application for Android, iOS, and web.
- Implemented workflow, notification, and communication features using REST API, MongoDB, Firebase Notification, and Qiscus to reduce reliance on third-party tools.

PT. Bank Rakyat Indonesia (Outsource) - Mobile Developer (Flutter) May 2022 – Nov 2022

Indonesian state-owned bank serving MSMEs, with a 65.4% contribution to Indonesian financial inclusion.

- Maintained and supported Flutter application development, including codebase refactoring, library updates, and security-related improvements.

Freelance - Mobile Developer (Flutter Android & IOS) April 2022 – Present

Implemented UI designs into Flutter applications and supported client teams through release readiness for 3 mobile projects.

Formal Education

Universitas Siber Asia - Informatics Management Nov 2024 - Present

Politeknik Negeri Medan - Informatics Management Sept 2018 - Okt 2021
